

Intended typing sequence

If you want multiple stacks of marks, start stacking on the top side first, and type towards outside. When it's done, work on the bottom side in the same manner, again typing down.

If you want a mark and sarince, just type the mark and then sarince.

OpenType alternates

◌̇ ◌̈ Not u+E04E or u+E04F in this font, folloing Telcontar 0.0.8. Simply type ◌̇ or ◌̈ twice.

◌̇ ◌̈ They take the place of u+E04E or u+E04F.
